WORK EXPERIENCE

Recreation Association of the Public Service of Canada May. 2022 – Sept. 2024

General Accountant Ottawa, ON

- Worked at RA Centre, Ottawa's premier multi-service complex serving over 22,000 members, including thousands of Canadian federal public service employees.
- **Full-Cycle Accounting:** Managed full-cycle operations, general ledger (GL) maintenance, bank reconciliations, and variance analysis for diverse revenue streams.
- **Process Automation:** Utilized Python to automate multi-channel POS data matching, eliminating manual data entry and reducing reconciliation time.
- **Controls & Accounts Management:** Oversaw internal financial controls, optimized AP/AR aging reports, and maintained accurate financial records in accordance with Canadian accounting principles and tax regulations.

Softron Tax Jan. 2022 – May. 2022

Office Supervisor Ottawa, ON

- Worked at Softron, one of Canada's top three largest retail tax firms, operating 30+ locations across Ontario for over 40 years.
- **Operations & Leadership:** Managed daily tax office operations and supervised a team of 4 tax preparers, coordinating workflow allocation to process 1,000+ client tax files per season.
- **Audit & Client Relations:** Conducted pre-filing data quality audits to minimize tax discrepancies and directly resolved corporate compliance inquiries with the CRA.

Tax Accountant (Co-op) Jan. 2020 – Apr. 2020

- **Tax Compliance:** Promoted to Office Supervisor after successfully preparing and filing 300+ personal (T1) and corporate (T2) tax returns under tight CRA deadlines.

PROJECTS

Data Analyst | Banking Credit Approval Predictor | Python Sept. 2025 – Dec. 2025

University of Ottawa - Course DTI 5126 Applied Data Science Ottawa, ON

- Cleaned large-scale anonymized banking customer datasets to remove financial data anomalies.
- Coded a predictive classification model using debt ratios and payment histories to evaluate credit eligibility.

Cloud Deployment Analyst | Equity Risk Forecasting App Sept. 2025 – Dec. 2025

| Python & Cloud Architecture

University of Ottawa - Course DTI 6302 Machine Learning in Applied Data Science Ottawa, ON

- Modeled historical asset data to forecast market volatility trends and financial risk parameters.
- Deployed the forecasting application on cloud infrastructure and configured system performance monitoring.
